

Custom Ear Molds

\$199 set of 2 with 3.5mm cord

What is the advantage of having a custom made ear mold?

- Besides comfort, a custom ear mold guarantees privacy- What is heard is not shared with those in the surrounding area.
- Optimum hearing in noisy environments
- Makes for the best fit so it remains in the ear, especially when the head is in continuous movement.

The ability to remain in constant communication in any environment enhances the safety of personnel.

Multiple funding options
to insure the safety of the team-

- Purchase order
- Purchase card/credit card
- Utilization of funds from uniform allowance
- Matching funds shared by department and individual(s)
- Payroll deduction

This is a piece of safety equipment, if a flashlight is utilized sporadically then silence is imperative. Don't be discovered by that radio or mic going off while remaining in complete communication.
